Results-driven **Frontend Developer** with 2+ years of hands-on experience building responsive, accessible, and high-performance web applications using **React.js, TypeScript, Redux Toolkit, and Tailwind CSS**. Skilled at crafting clean and maintainable code, optimizing API integrations, and enhancing UI/UX for modern web experiences. Collaborative team player experienced in Agile environments. Open to remote or on-site opportunities.

Skills & Technologies

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Redux Toolkit, TypeScript, React Router
- **Frameworks:** Bootstrap, Tailwind CSS, Responsive Design, Cross-Browser Compatibility
- **Backend / Database:** Node.js, Express.js, MongoDB, Mongoose, Zod
- **Development Tools:** VS Code, Chrome DevTools, Figma, Postman, Git, GitHub
- **Others:** RESTful API Integration, Authentication & Authorization (JWT, bcrypt), API Caching, Performance
- **Optimization,** Debugging, Agile Collaboration

Experience

Frontend Developer (Internship) — Eit It Park

[April 2025 - July 2025]

- Built 15+ reusable **React components** with Tailwind CSS, improving UI consistency and reducing delivery time by 25%.
- Executed **API integrations** and **state management** using Redux Toolkit Query, reducing redundant requests and improving performance by 30%.
- Collaborated with designers to deliver **pixel-perfect and accessible UIs** aligned with design guidelines.
- Participated in Agile sprints, conducted code reviews, and maintained high coding standards for team deliverables.
- Supported cross-functional teams to deliver production-ready releases on schedule.

Projects

Digital Wallet Payment System

Live-link

Git-Client

Git-Server

React.js, TypeScript, Tailwind CSS, Redux Toolkit Query, Node.js, Express.js, MongoDB

- Built a full-stack digital wallet system with secure authentication (**JWT + bcrypt**) and role-based access control (**user/admin**).
- Applied **RTK Query** for efficient API state handling and caching, reducing network load by 40% (**user/agent/admin**).
- Structured client code with modular folders and controller-service-repository pattern for scalability.

Library Management System

Live-link

Git-Client

Git-Server

React.js, TypeScript, Tailwind CSS, Redux Toolkit Query, Node.js, Express.js, MongoDB

- Developed a JWT-secured **CRUD** workflow for books, borrowing, and returning features.
- Delivered a **responsive, mobile-first UI** using Tailwind CSS.
- Adopted **RTK Query** for API caching and error handling, improving data-fetch efficiency.

Food Sharing Platform

Live-link

Git-Client

Git-Server

- Designed a modern food sharing platform enabling users to donate or request food in real time.
- Implemented **real-time data fetching** and UI updates using RTK Query.
- Built a **mobile-first responsive UI** with Tailwind CSS for accessibility.

Education

Higher Secondary Certificate(H.S.C) - Panchagarh Moqbular Rahman Govt: college.

Additional Information

Languages: Bengali (Native), English (Intermediate Proficiency)
